Certified Safety Professional (CSP[®]) Exam Review

Date: November 13-16, 2017

Time: 8:30 am–5:30 pm

Location: Anaheim

Southern California Education and
Research Center

Southern California Education and Research Center

"Certified Safety Professionals (CSP) are persons who perform at least 50% of professional level safety duties, including making worksite assessments to determine risks, assessing potential hazards and controls, evaluating risks and hazard control measures, investigating incidents, maintaining and evaluating incident and loss records, and preparing emergency response plans. Other duties could include hazard recognition, fire protection, regulatory compliance, health hazard control, ergonomics, hazardous materials management, environmental protection, training, accident and incident, investigations, advising

management, record keeping, emergency response, managing safety programs, product safety and/or security." - *excerpt from Board of Certified Safety Professionals copyrighted material.*

JIM UNMACK, MS, CIH, CSP

**Course Director , Ext.
Instructor, UCLA and CSUDH**

Other distinguished
professionals to be named

Certified Safety Professional (CSP®)

Exam Review

Learning Objectives:

The purpose of this course is to prepare individuals to sit for the CSP Exam by proving math and science reviews, reviewing topics that will be covered on the exam, and providing insight to each participant as to their strengths and where they may need more independent study prior to the exam.

Note: This is an overview course, not advanced safety engineering. A major aim of this course is to assist CSP exam takers to identify areas in which they are proficient and those in which they need more intensive study. Plan to allow 4-6 weeks following the class for additional study before taking the exam.

The course covers the CSP Blueprint which includes:

- Domain 1 - Collecting Safety, Health, Environmental, and Security Risk Information
- Domain 2 - Assessing Safety, Health, Environmental, and Security Risk
- Domain 3 - Managing Safety, Health, Environmental, and Security Risk

Accreditation

- **ABIH**— The current event contains 32 hours which can be claimed for CM credit.
- **REHS** — Approved for 32 REHS Contact Hours. *The SCERC is an REHS Continuing Education Accrediting Agency approved by the CA Department of Public Health.*
- **BCSP** and Continuing Education Units — Eligible for 3.2 Continuation of Certification Points/Continuing Education Units

Who Should Attend

To apply for the CSP you must have a bachelor's degree or higher in any field from an accredited institution; or an associate degree in safety, health, or environmental from an accredited institution. You must also have four years of professional safety experience. And you must also hold one of a number of credentials listed in the Guide named below.

Please see "The Complete Guide to the ASP®" published by the Board of Safety Professionals - <http://www.bcsp.org/Portals/0/Assets/DocumentLibrary/ASP-Complete-Guide.pdf>

Southern California Education and Research Center

Who We Are

The Southern California Education and Research Center is a NIOSH (National Institute for Occupational Safety and Health) ERC. It is one of 18 ERCs at major universities whose goal is to train occupational health and safety professionals, provide them with professional development, and train non-professionals in occupational health and safety best practices. It is located in the Fielding School of Public Health at the University of California, Los Angeles, and includes the Center for Occupational and Environmental Medicine at UC Irvine School of Medicine, the Occupational and Environmental Health Nursing Program at the UCLA School of Nursing and the Industrial Hygiene Program at UCLA.
