Personal Protective Equipment (PPE)

Dates and Locations:

- November 2, 2017 in Anaheim 1:30 - 5:30 pm
- November 30, 2017 in Los Angeles 1 - 5 pm

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Course Overview

Workplaces present a variety of exposures that can cause illness and injury. Knowing what personal protective equipment (PPE) is right for the situation, how to use it, and if the employer is responsible for supplying it can be the difference between a healthy worker and a Workers Compensation claim.

Hazards will never be completely eliminated from the workplace; hence, OSHA's edict to employers: identify workplace hazards and ensure that employees are informed of their presence and how to protect themselves from harmful exposures. An employer's responsibility for protecting the worker is enhanced through the use of OSHA's hierarchy of controls: (1) engineering controls, (2) work practices, and (3) the default control of personal protective equipment (PPE). Unfortunately, there are still too many daily workplace incidents caused by the absence of and/or incorrect use of PPE. So let's get back to the basics.

This workshop addresses the general industry requirements of both California and Federal

OSHA with an emphasis on head, face, eye, body, hand, foot, and respiratory protection.

Faculty

GARY KELLEY, MS, Occupational Safety and Health

Gary spent 22 years in the petroleum industry with Shell Oil Company and Unocal Corporation as a Safety Inspector, Manager of Safety Programs, and Company Trainer for Safety Management Systems and Compliance. He is an Outreach Trainer for the California Specialized Training Institute (CSTI) and is owner of Kelley Safety Training. His background is in occupational safety, emergency response, industrial hygiene, office ergonomics, management systems auditing, and training.

ALBA VAZQUEZ, MCS-P

OSHA Authorized Outreach Trainer

Alba M. Vazquez is an OSHA Authorized Outreach Trainer in Construction and General Industry, Author, Medical Compliance Specialist and Professional Speaker. Some of the clients she has provided training for include: Hallmark, PG&E, Cedars Sinai Medical Center, Kaiser Permanente, IHOP, Dow Chemical, Goodwill, City of Los Angeles, and many others.

Personal Protective Equipment (PPE)

Who Should Attend

This course is an excellent program for Health Care professionals and workers, Safety Managers, Safety Coordinators, Human Resource Specialist, managers, supervisors, first responders and anyone who needs to develop, implement and put into practice BPP safety protocol and procedures within their organization.

Accreditation

ABIH: This event contains 4.0 hours which can be claimed for CM credit.

REHS: Approved for 4.0 REHS Contact Hours. *The SCERC is an REHS Continuing Education Accrediting Agency approved by the California Department of Public Health.*

BRN: Provider approved by the California Board of Registered Nursing, Provider BRN #13555 for up to 4.0 BRN contact hours.

BCSP & Continuing Education Units: Eligible for .4 Continuation COC Points/CEUs

Learning Objectives

At the end of the training participants will be able to:

- Define PPE requirements under the law including training
- Explain who, when, where - 3 routes of entry
- Name 2-3 barriers to consistent use of PPE
- Identify 3 techniques to insure consistent use of PPE
- Conduct or recognize need for hazard assessment for proper selection in sample scenarios
- Identify 3 potential adverse effects of proper and improper use of PPE

Who We Are

The Southern California Education and Research Center is a NIOSH (National Institute for Occupational Safety and Health) ERC. It is one of 18 ERCs at major universities whose goal is to train occupational health and safety professionals, provide them with professional development, and train non-professionals in occupational health and safety best practices. It is located in the Fielding School of Public Health at the University of California, Los Angeles, and includes the Center for Occupational and Environmental Medicine at UC Irvine School of Medicine, the Occupational and Environmental Health Nursing Program at the UCLA School of Nursing and the Industrial Hygiene Program at UCLA.
