Research Center

INJURY AND ILLNESS PREVENTION PROGRAMS (IIPP)

Course Overview

Still unmatched by Federal OSHA is the 1991 Cal/OSHA Injury and Illness Prevention Program (IIPP). The IIPP is a mandated, written, safety program designed to support the shared requirement of the Occupational Safety and Health Act and Cal/OSHA that every employer is required to provide a safe and healthful workplace for its employees.

Why is there still non-compliance 42 years after the OSH Act and 23 years after California Senate Bill 198? Let's get back to the basics of the IIPP in this IIPP Workshop that will have participants exploring various ways to comply and encourage them to look at their workplace IIPP for compliance, applicability, and effectiveness.

Every California employer must establish, implement, and maintain a written Injury and Illness Prevention (IIP) Program and a copy must be maintained at each worksite or at a central worksite if the employer has non-fixed worksites. The requirements for establishing, implementing and maintaining

an effective written Injury and Illness Prevention Program are contained in Title 8 of the California Code of Regulations, Section 3203 (T8 CCR 3203) and consist of the following eight elements:

Responsibility, Compliance, Communication, Hazard Assessment, Accident/Exposure Investigation, Hazard Correction, Training and Instruction, and Recordkeeping.

Faculty

GARY KELLEY, MS, **Occupational Safety and Health**

Gary spent 22 years in the petroleum industry with Shell Oil Company and Unocal Corporation as a Safety Inspector, Manager of Safety Programs, and Company Trainer for Safety Management Systems and Compliance. He is an Outreach Trainer for the California Specialized Training Institute (CSTI) and is owner of Kelley Safety Training. His background is in occupational safety, emergency response, industrial hygiene, office ergonomics, management systems auditing, and training.

Injury and Illness Prevention Programs (IIPP)

Who Should Attend

Health and Safety Professionals, Industrial Hygienists, Safety Engineers, Compliance Officers, Registered Environmental Health Specialists, Health and Safety Committee Members, Supervisors, Risk Managers, Loss Control Specialists.

Accreditation

ABIH: has previously awarded CM credit for this event. This event contains 8.0 hours which can be claimed for CM credit.

REHS: Approved for 8.0 REHS Contact Hours. *The SCERC is an REHS Continuing Education Accrediting Agency approved by the California Department of Public Health.*

BRN: Provider approved by the California Board of Registered Nursing, Provider BRN #13555 for up to 8.0 BRN contact hours.

BCSP & Continuing Education Units: Eligible for .8 Continuation COC Points/CEUs

Learning Objectives

At the end of the training participants will be able to:

- Explain the importance of an IIPP and why it came into existence.
- Describe what the IIPP comprises and list its 8 Key Elements.
- Prepare to plan, develop and implement an effective IIPP within your organization.
- Update and have your IIPP complement your existing Safety Program.

Southern California Education and

Who We Are

The Southern California Education and Research Center is a NIOSH (National Institute for Occupational Safety and Health) ERC. It is one of 18 ERCs at major universities whose goal is to train occupational health and safety professionals, provide them with professional development, and train non-professionals in occupational health and safety best practices. It is located in the Fielding School of Public Health at the University of California, Los Angeles, and includes the Center for Occupational and Environmental Medicine at UC Irvine School of Medicine, the Occupational and Environmental Health Nursing Program at the UCLA School of Nursing and the Industrial Hygiene Program at UCLA.
