

# OSHA 30 Training for General Industry

March 24-27, 2025 at UCLA

## OSHA 30 General Industry

This comprehensive safety training course is designed for managers, supervisors, and employees with safety and health responsibilities in general industry settings. The OSHA 30-hour General Industry course delivers crucial knowledge about workplace safety standards, hazard identification, and risk mitigation strategies. Throughout this intensive training, participants will gain in-depth understanding of OSHA standards, policies, and procedures. Upon successful completion, participants will receive their OSHA 30-Hour General Industry card, a valuable credential (that does not expire) demonstrating their commitment to workplace safety and knowledge of OSHA regulations.

### Key topics covered include:

- Injury and Illness Prevention Program (Cal/OSHA)
- Hazard communication
- Emergency action plans and fire prevention
- Electrical safety
- Walking and working surfaces
- Personal protective equipment (PPE)
- Fall prevention
- Safety and health program management
- Bloodborne pathogens
- Material handling
- Machine guarding
- Back injury prevention
- Incident Investigation and other safety topics
